This matter came before the Hearing Officer of the Tennessee Regulatory Authority (the "Authority" or "TRA") at a Hearing held on December 17, 2003, to consider the *Application for a Certificate to Provide Competing Local Telecommunications Services* (the "*Application*") filed by Vertex Communications, Inc ("Vertex") on August 28, 2003. The Application requests the Authority to grant a certificate of public convenience and necessity to provide competing resold and facilities-based local exchange telecommunications services in Tennessee.

Legal Standard for Granting Certificate of Public Convenience and Necessity

Vertex's *Application* was made pursuant to, and was considered in light of, the criteria for granting a Certificate of Public Convenience and Necessity ("CCN") as set forth in Tenn. Code Ann. § 65-4-201, which provides, in pertinent part:

(a) No public utility shall establish or begin the construction of, or operate any line, plant, or system, or route in or into a municipality or other territory already receiving a like service from another public utility, or establish service therein, without first having obtained from the authority, after written application and hearing, a certificate that the present or future public convenience and necessity require or will require such construction, establishment, and operation, and no person or corporation not at the time a public utility shall commence the construction of any plant, line, system or route to be operated as a public utility, or the operation of which would constitute the same, or the owner or operator thereof, a public utility as defined by law, without having first obtained, in like manner, a similar certificate

(c) After notice to the incumbent local exchange telephone company and other interested parties and following a hearing, the authority shall grant a certificate of convenience and necessity to a competing telecommunications service provider if after examining the evidence presented, the authority finds:

(1) The applicant has demonstrated that it will adhere to all applicable commission policies, rules and orders, and

(2) The applicant possesses sufficient managerial, financial, and technical abilities to provide the applied for services.

(d) Subsection (c) is not applicable to areas served by an incumbent local exchange telephone company with fewer than 100,000 total access lines in this state unless such company voluntarily enters into an interconnection agreement with a competing telecommunications service provider or unless such incumbent local exchange telephone company applies for a certificate to provide telecommunications services in an area outside its service area existing on June 6, 1995¹

¹ Notwithstanding the existence of subsection (d), the Federal Communications Commission ("FCC") has expressly preempted the Authority's enforcement of subsection (d) pursuant to the authority granted to the FCC under 47 U.S.C. § 253(d) *In the Matter of AVR, L P d/b/a Hyperion of Tennessee, L P Petition for Preemption of Tennessee Code Annotated Section 65-4-201(d) and Tennessee Regulatory Authority Decision Denying Hyperion's Application Requesting Authority to Provide Service in Tennessee Rural LEC Service Area*, FCC 99-100, (Memorandum Opinion and Order) 14 F.C.C.R. 11,064 (May 27, 1999), (Memorandum Opinion and Order) 16 F.C.C.R. 1247 (January 8, 2001) The Authority has since issued an order expanding a competing local exchange carrier's CCN to provide telecommunications services on a statewide basis including areas served by incumbent local exchange carriers with fewer than 100,000 total access lines in Tennessee *See In re Application of Level 3 Communications, LLC to Expand its CCN to Provide Facilities-Based Local Exchange and Interexchange Telecommunications Services in all Tennessee Service Areas*, Docket No. 02-00230, *Order Approving Application of Level 3 Communications, L L C to Amend Its Certificate of Public Convenience and Necessity* (June 28, 2002)
